React.js developer with a solid track record in building lively easy-to-use web apps. I love using cutting-edge web tech to tackle tricky issues and make things better for users. I'm keen to join a team where we can work together and make a difference in a company that looks to the future. As a computer science student in my final year at Global Wealth University Lome Togo, I've gotten good at front-end development with React.js. I've also made professional websites for clients at prices that won't break the bank. I've got a CS50 certificate under my belt and a solid portfolio of projects I've finished and ongoing. I know my way around JavaScript HTML, CSS, Tailwindcss, bootstrap, Git, React and RESTful APIs. When I work, I pay close attention to the little things, I'm all about writing clean code, and I'm always trying to learn more and get better at what I do.

EXPERIENCE

JUNE 2024 – CURRENT

FRONTEND DEVELOPER (VOLUNTARY JOB), EVOLVE TECH (START-UP)

Responsibilities:

- Built and maintained intuitive web UIs in React. And, by focusing more on oment in the case of Js we can improve many user experiences
- Worked with backend developers to link APIs for a solid integration and data flow.
- Responsible for responsive design principles so websites are compatible and operate effectively over different browsers as well a devices.
- Performed regular code reviews and debugging sessions to improve code quality as well as application performance.

JAN 2024 – CURRENT

FRONTEND DEVELOPER, MIATOS SOLUTIONS

Responsibilities:

- Used React to build interactive web applications as a JavaScript Engineer. This will lean on the principles of being a common Js and thus help to enhance digital presence for clients.
- Worked closely with UI/UX designers & turned their Designs to pixel perfect ready-to-build designs.
- Responsible for cross browser compatibility and mobile responsiveness of all web applications.
- Used the version control system (Git) for maintaining code and tracking changes.

Achievements:

- Increased website upload speeds by 40% through available performance optimization means
- Improved the Quality of Codebase across all services with introduction of best practices and regular code reviews.

EDUCATION

MAY 2021 - CURRENT

B.SC. COMPUTER SCIENCE, GLOBAL WEALTH UNIVERSITY

NOV 2023

CS50, HARVARD UNIVERSITY

SKILLS

- REACT
- JAVASCRIPT
- HTML, CSS, TAILWINDCSS, BOOTSTRAP
- PYTHON
- C Programming.

ACTIVITIES

- I am passionate about creating intuitive and engaging user interfaces that enhance user experience.
- I enjoy mentoring aspiring developers, therefore providing guidance and support to help them grow their skills.

Volunteer Experience:

- Frontend Developer (Voluntary Job), Evolve: I have contributed to the development and maintenance of a user-friendly web interfaces, enhancing the overall user experience.
- Regularly volunteered at local coding workshops and bootcamps, helping to educate and inspire the next generation of tech enthusiasts.

Leadership:

- I have organized and facilitated team-building activities to improve communication and teamwork within the development team.

Coding Certifications:

- CS50 Certificate: I have completed Harvard University's CS50 course, which helped in gaining a strong foundation in computer science and programming principles.

Additional Skills:

- I have strong problem-solving skills and the ability to think critically to overcome technical challenges.
- Excellent communication and teamwork abilities, enabling effective collaboration with cross-functional teams.
