React.js developer with a solid record in building lively easy-to-use web apps. I love using cutting-edge web tech to tackle tricky issues and make things better for users. I am keen to join a team where we can work together and make a difference in a company that looks to the future. As a computer science graduate at Global Wealth University Lome Togo, I have gotten good at front-end development with React.js. I have also made professional websites for clients. I have a CS50x certificate under my belt and a solid portfolio of projects I have finished and ongoing. I know my way around JavaScript HTML, CSS, Tailwindcss, Bootstrap, Git, React, Typescript and RESTful APIs. When I work, I pay close attention to every details, I am all about writing clean code, and I am always trying to learn more and get better at what I do by reading docs.

EXPERIENCE

SEPT 2024 – CURRENT
FRONTEND DEVELOPER (CONTRACT), WHTA NETWORKS

JUNE 2024 – CURRENT
FRONTEND DEVELOPER (VOLUNTARY JOB), EVOLVE TECH (START-UP)
